SDMS Document ID

1012217

----- Message Contents -----

The state seems anxious to get an RPM assign to the site for the soil study work that will be conducted (voluntarily) by ARCO. They have suggested that a geochemical background would be a plus. They anticipate a 3 day visit to the site and about 6 meetings. The term of the study is now until about the end of October.

I would assume the RPM would be involved in the review of any additional voluntary cleanup (VCUP) applications received relative to this site.

The state contact is Mark Walker, the VCUP coordinator. His number is 692-3449.

RICO RAP MEETING

June 19, 1996

AGENDA AND LEAD

Purpose of Meeting - Lisa Reed (5 min)

RESIDENTIAL

DB REST 2820 PM

Hg

I. RICO

Rico Summary of Site Information - Bob Heise (10 min)
